Languages : Spoken and written French and English, conversational spoken/written Japanese, basic Spanish.

Game Design Work

Iron Saga VS

Gameduchy

Mecha Fighting Game – Global Media Director – design, marketing & trailers

2D versus fighting game featuring classic anime giant robots, with robust online functionality. As Global Media Director, was in charge of marketing for regions outside of China & Japan. Arranged publicity events and media campaigns as well as communication with partner companies. Worked directly on multiple trailers for their YouTube channel, including the game's main Launch Trailer. This is in addition to design work for both UX and combat design, as well as voice acting.
